NUMBER 43

ILLUMINATION OF WAINWRIGHT TOWN ACTUALLY CAME

Citizens of Wainwright were justly proud of the Electric Light Co. on Friday night last in having been able to fulfill their desire to have the main street lighted with electricity. This achievement marks one of the great forward movements of the town. It will be one of the big "Talking features" and one of the "best advertisements" we have had for some time.

The street lights gave an excellent, brilliant, steady glow, and if that keeps up, as it undoubtedly will, after the plant has been completely installed every one should be highly satisfied and the council should find no difficulty now in being kind to the company. The Wainwright Light and Power Co. deserves Wainwright's best appreciation for their untiring efforts in giving us light on Friday night last, making one of the most valuable exhibits at the nineteen hundred and seventeen annual exhibition. The company hopes to carry on the work with all possible haste to completion. The town will have free light until the meters arrive and just as wire can be secured with the private houses and places of business be connected up. As soon as possible the people of Wainwright will be enjoying this one of the modern conveniences, which will make the town a more desirable place in which to live.

Local Liberals at 'Peg Convention

At a meeting of the Liberal Association held last week in the office of H. V. Fieldhouse, delegates were appointed to attend the Liberal Convention in Winnipeg. The convention, which is in session during the seventh and eighth of August, has in attendance Lee Wall, R. Aykroyd, V. E. Graham and D. Collette, of Wainwright, and Charles Kirby, D. E. McDonald and E. A. Keith, of Chauvin, as representatives of this constituency.

Mrs. M. O'Leary, of Viking, was a guest at the home of Mr. and Mrs. Angus Ross during exhibition week.

John Wangenous, of Kinella, was a visitor in town Tuesday.

Between trains Sunday, Mrs. Lar Kelly, of Viking, visited at the Angus Ross home.

Druck season opens Sept 1st this year. Game licenses can be had from Magistrate Ross for the sum of \$2.25.

Special prices on preserving fruits, raspberries, peaches, apricots and cherries at Fraser's.

WAINWRIGHT ANNUAL FAIR BROUGHT OUT LARGE NUMBER EXHIBITS FEW

Under the auspices of the Wainwright Agricultural Society the annual fair was held on the exhibition grounds last Thursday and Friday and in some respects was on the most successful events in the history of the society.

Seeking to avoid the busy harvest time of the farmer the dates were set a little earlier this year, but there again another difficulty was encountered that of being too early and so the exhibits this year were fewer than otherwise might have been. If the farm products, on account of the lateness of the season, were not so plentiful, the domestic manufacturers and fancy work were well represented and up to the usual good standard.

On the second day of the fair, despite the somewhat disagreeable weather the sports attracted large crowds. There were more paid admissions this year than in any previous year and taking the grand total attendance there must have been about 1500 people on the grounds that day. By way of contrast also with last year the grandstand receipts exceeded the previous year by about forty dollars. Not only will the Agricultural Society be money in pocket this year but will be able to clear off some of the previous year's indebtedness.

The horse racing was not only interesting, but at times very exciting. The rains had made the course muddy, but the results some of the races were very slow and in other cases the slippery track resulted in three young riders being thrown violently to the ground, without, however, any serious injury resulting.

One of the main grand stand attractions was the baseball tournament in which Edgerton carried off the money. First was the game between Edgerton and Provost, Edgerton winning; the second between Cadogan and Ribstone, Cadogan winning; thus leaving the final game between Cadogan and Edgerton in which Edgerton carried the honors by a score of 11 to 1.

One of the chief attractions at the fair this year was the exhibit from the Dominion Experimental Station at Lacombe. This farm, which was established by the Federal Government to serve central Alberta, has been in operation for some time and valuable results have been obtained from the experiments carried on. Many of the farmers of the neighbourhood took advantage of the chance to get information about these results.

The exhibit consisted of a number of sections devoted to different phases of farm life. The display of small fruits near the entrance at once caught

the eye, and several ladies were heard to declare that if strawberries, gooseberries, currants and raspberries would grow like that, they were going to have some in their gardens.

The models of buildings and fittings shown in cattle, hogs and sheep sections were examined carefully by many farmers, while the poultry exhibit and the hot bed were equally attractive to town and country dwellers.

Behind the tables were a number of pictures and signs showing some of the more important experiments. The value of the silo to the dairyman in saving cost of production, the saving of time with the self feeder for hogs, and the necessity for inoculation of animals were among those noted.

In each section are placed a number of bulletins referring to the models and pictures on the bottles. These could be obtained free of charge by anyone who was interested. Mailing list was provided. Any new bulletins issued on the subjects asked for will be forwarded to those who signed.

The experiences of the station are always at the service of the farmers, and answers to any problems that may arise can often be obtained by writing to the Superintendent at Lacombe.

On the grounds the Great War Veterans exhibit attracted continual crowds. They had shown an interesting and instructive exhibit of the war, and strong German and British antagonisms giving the uninitiated an understanding of present day methods of warfare. Veteran Fairhead lectured the crowds on trophies, Logan on the trenches while Crampton marshalled the crowds seeking admission.

Altogether the fair this year was a splendid success and from reports of visitors it was such a character as to give them a desire to return next year.

The following is a list of the donors and winners of special prizes, followed by winners of agricultural society's purses:

PRIZE ESSAY

On the editorial issue will be found the essay which won the prize at the fair. It has been written by Pearl Davies of Arm Lake School. This little girl is to be congratulated on her interest in this department of the exhibition and in giving us her essay on "Plants, Animals and People of Europe." The hope is expressed that another year, a number of children will be encouraged to put in entries of this kind in their department of the Annual Fair.

Visit of Director Experimental Farms

Mr. Grosdale, Director of Dominion Experimental farms, enquired over from Vermilion this week to the Buffalo Park making an inspection trip. He was interested in and delighted with the Catalo scheme of the park and stated to Supt. Smith that as soon as the Dominion could get the enclosure in shape they would go into the scheme much more extensively.

Mr. Grosdale reports splendid crops between here and Vermilion and stated that in his estimation there will be a yield of about thirty bushels to the acre.

While on his official visit Mr. Grosdale is the guest of Mr. and Mrs. Smith, at the Superintendent's house.

COOPER BROTHER'S CIRCUS APPEARS HERE SATURDAY

Are you going to the show? Is what everybody is saying to each other these pleasant days, and the show that they mean is the Cooper Bros Railroad shows and Trained Animal Exhibition, which will exhibit at Wainwright Sat Aug 11th, Afternoon and night, rain or shine, under acres of waterproof tents. All new this year, with new acts, features and wonders from all parts of the globe. The show that is different and without a doubt the most moral high-class amusing and educational exhibition that will visit our town this year.

There is a fascination about a tented show that appeals to everybody. Makes the children happy and takes the older folks back to their childhood days. The blare of the brass bands, the trumpet of the elephants, and the roar of the lions, the funny clowns with their comical donkeys and with the gaily dressed performers makes this a big holiday for all. Lay away your cares and come prepared to enjoy yourself.

Cooper Brothers Program is made up of high-class European novelties, horses, ponies, dogs, monkeys, goats, and elephants acts, and scores of aerial, ground, gymnastic and acrobatic acts, and numerous other acts combined with a dozen or so of foolish and ludicrous comedy acts by an army of funny clowns help to make up the two hours and a half programme of Cooper Bros Show. Also an innovation is being presented this year by the Yvettas the human butterflies and Madame Bretina and her beautiful white Arabian horse and dogs in magnificent stately displays. A pictorial delight depicting the following: Military Attention, Home Sweet Home, Peace, Love, Statue of Liberty, and Hunting.

More than 200 other features will be seen only with Cooper Bros Show. This is the show that you want to take your mother or sweetheart.

Bean Contest Winners Missing

The Daughters of the Empire carried on a very successful bean guessing contest at the exhibition grounds last week. They offered two prizes, the first being a pair of very comfortable boots and the second a collar box. They regret to say that the prize winners failed to turn up for their prizes. Miss Gibson, secretary of the society, has left the prizes at the STAR office where they will remain two weeks to be claimed by the owners.

There were 1549 beans in the bag, the person who guessed 1600 gets first prize and the person guessing 1725 gets second. Will these two persons having duplicate slips with these numbers on, call for their prizes?

Save enough money to go to the circus. Buy your preserving fruit from Fraser & Co.

Jas. Muller has received word from his brother Edward in France that he has been wounded the second time, this time severely in the hips. Edward went over with the 90th Battalion of Winnipeg.

Write and the children to see this will be the big holiday for everybody come bring the children and have a good time.

"TANK" ADVANCE

LAND IRONCLADS TERROR TO HUNS

Speaking of the new "Tank" method of Warfare last January Mr. H. G. Wells said "The machine will perhaps be as big as a destroyer and more heavily armed and equipped. It will swim over and through the soil at a pace of 10 to 12 miles. In front of it will be a corn land, meadows, orchards, pastures, villages and towns. It will advance upon its belly with a swaying motion, devouring the ground beneath it. Behind it masses of soil and rock, lumps of turf, splintered wood, bits of houses, occasional streaks of red, will drop from its track and will leave a wake six or seven times as wide as a high road from which all soil, all cultivation, all semblance to cultivated or cultivable land will have disappeared. It will not even be a track or soil. It will be a track of mud and bare. It will be a flying strip of nature. Behind the fighting line these monsters will manoeuvre to and fro destroying the land for all ordinary agricultural purposes for many years to come.

These monstrous ironclads filled with engines, guns, munitions and men can move around anywhere almost immune to the fire of the enemy. Last Tuesday morning these Tanks squadrons went into action in Flanders and doing deadly work amongst the Germans have proved their right to place amongst the modern means of warfare.

The marvelous invention now used by the British is destined to play a most important part in the winning of the present war. A picture of this terrible land monster appears in this issue. But one can gather a little idea of the enormity and power of these machines from one picture and so the Elite Theatre has decided to give the people of Wainwright and district an opportunity of seeing a series of pictures on Friday and Saturday evenings of this week. These films, Canadians in Action-The advance of the Tanks are well worth seeing. Don't miss them.

PLANTS, ANIMALS AND PEOPLE OF EUROPE

GREAT FORESTS are of one time covered large areas of Europe. The most important forests are those of northern Russia, and those of the Scandinavian peninsula, and the forests of portions of Germany. These forests are largely of pine, oak, elm, ash and linden trees. The more northern wood extend to the Tundra country with its moss and heath. In the southern countries, such as Spain, Portugal, and Italy, the more common trees are the olive, the lemon and the orange. Spain and Portugal also grow the famous cork oak, from the bark of which bottle stoppers, cork limbs etc., are made. In parts of south-eastern Europe grass is the chief covering of the ground. Almost every European country grows wheat, rye, and barley and fruit is abundant.

The most interesting animal is the Chamois and the reindeer of the Tundra. Europe is so well-cultivated that most of the wild animals have disappeared, and it is only in the Russian and other great forests that it is possible to hunt animals such as the wolves, bear, deer etc. Many of the wild animals of Russia, such as the wolf, bear, sable, and ermine, are hunted or trapped for the sake of their furs, which are sold at huge fairs at various Russian centres. One of these is held at Nizhni-Novgorod, on the Volga. For two months of the year thousands of people gather from all parts of Asia and Europe to dispose of all kinds of produce. When the two flags before the house of the govern- or of the place are pulled down it is a sign that the fair has ended. The people then return to their homes, and the place remains deserted until the time of the opening of the next fair.

The domestic animals reared in Europe are largely those we have found suitable to our own continent namely, cattle, sheep, horses, pigs, and poultry. It is said that the Russian Empire owns half the horses in the world. It is also known that our best cattle, sheep, and pigs have come from the British Islands. Spain is noted for its horses and merino sheep. Reindeer are the beasts of burden about the white Sea. Camels about the Caspian donkeys, about the Mediterranean and horses elsewhere.

The countries bordering the North Sea share in the fisheries of this body of water. The Dogger Banks remind us of the Great Newfoundland banks where codfish are caught on hand lines and are dried, salted and sent over the continent.

Long long ago there was in Asia agricultural people called the Aryan, or noble family. These people were attacked and driven out of Asia toward the west. In turn they drove away the people found along the shores of the Mediterranean Sea, but were again driven farther to the west of Europe by the new invaders from Asia. Their descendants, called Kiltis, are to-day found in Wales, the Highlands of Scotland, and the West of Ireland. The people who drove the Kiltis out took their place in southern Europe were called the Romance people. Their descendants now live in Portugal, Spain, parts of France, and in Italy. After the Romance tribes, another horde, the Teutons, a race of tall, fair people came and settled in north-western Europe in the countries now called Norway, Sweden, Germany, Holland, Belgium, Switzerland, and portions of the British Isles. While the Teutons were settling another Aryan tribe the Slaves spread out across Russia, Greece, Servia, Bulgaria, and Montenegro, a war like tribe of the yellow type settled in Turkey. The Magyars, an Asiatic race, settled in Hungary, and Finns, another branch of the yellow race settled in northern Europe. The great race of Europe and the race of the world to-day is the white race.—Exhibition Prize Essay.

Quick Hauling To Market

JUST think of the time the Ford saves a busy farmer in hauling milk to the cheese
factory—vegetables, butter, eggs and poultry to market—fruit to the railway
station. One fruit grower, last season, made four trips a day to the railway station,
a total of 144 miles, and carried as high as 72 crates of 11 quarts each on a trip. He could-
n't have made more than one 36 mile trip a day with a team.

The Ford soon pays for itself in the time it saves the farmer. With help so scarce,
every farmer needs to make use of every precious minute of his time. To him the Ford car
is a real necessity. Indeed, some farmers tell us that it is doubtful if they could carry on
their farm work under present labor conditions if it wasn't for time the Ford saves them.

No farmer need be without a Ford. In fact, the average farmer could afford one if it
were double the price. It is as easy to drive as a horse, three times as fast, and costs less
per mile to run. Why not order one today?

ATLAS LUMBER CO. LTD

"Every Inch a Lumber Yard"

You have to place your confidence in somebody, when
you buy LUMBER. Our one idea is to deserve that con-
fidence.

Our enormous buying powers, coupled with our policy
of tying up as small a capital as possible in buildings and
yard-site, enables us to take advantage of the market and
at present we have on hand one of the largest stocks of
building material on the G. T. P. in his province, which
we are retelling at PRICES which we invite you to com-
pare with those prices from T. EATON, the Grain
Growers, or any other concern that ships carload lots
direct to the farmer.

We have a our office, the latest building plans for
houses and barns, are in constant touch with the CAR-
PENTERS of this district and can nearly always arrange
for a good builder on short notice; we carry plenty of
everything you need to build with, so if you are thinking
of building, come in and tell us what you want and we
will handle the rest of your profit and satisfaction.

A Coal and Wood Range
With a **HIGH OVEN**

**LIGHTER
DAY
HIGH OVEN
RANGE**

This range has been so constructed that you receive full benefit of the fuel before reaching chimney.

IT IS NOT
ONLY A
FUEL
SAVER

BUT

MAKES COOKING A PLEASURE

THE oven, being high, saves all that back-aching, caused by other ranges.

NO STOVE BLACK REQUIRED

Those extra steps for pots and pans not needed. A closet in line with fire box and reservoir keeps them handy to the range.
